

Riccardo La Malfa

Full-Stack Software Developer

PROFILE

Career-changer with an architecture background who retrained as a software developer and quickly built real production experience. Comfortable across the entire stack — React / Next.js / Svelte frontends, Laravel / Django / Python backends — with hands-on Linux ops, Docker and cybersecurity exposure. Currently deepening Go and Kubernetes.

PROFESSIONAL EXPERIENCE

Python Developer

Nuvolaris Inc. · Aug 2025 – present

Python · Next.js · TypeScript · Svelte · OpenWhisk

- Owned full lifecycle from PoC to production across multiple client engagements.
- Built micro-frontend apps in Next.js / TypeScript and Svelte; serverless backend actions in Python (Apache OpenWhisk).
- Designed agentic AI workflows for data extraction and interpolation; presented PoCs directly to clients.

Full-Stack Developer & Operations (Part-time)

Aroma S.r.l. · Oct 2024 – Jun 2025

React · Laravel · Docker · Cypress · Bash

- Architected a scalable component-based React frontend; implemented responsive UI across all device sizes.
- Delivered features in React and Laravel; managed Linux deployments via SSH, GitHub Actions and Docker.
- Automated CI/CD with Bash scripts; wrote end-to-end tests with Cypress.

Full-Stack Developer & Operations

Loliv · Jun 2024 – Dec 2024

PHP · MySQL · WordPress · Linux

- Defined and built the full database and backend architecture for an internal management platform.
- Managed server deployment, repository and WordPress maintenance; coordinated a 2-person dev team.

Architectural Consultant (Previous Career)

Freelance · Oct 2020 – Jun 2023

- Restoration design for Teatro Greco di Eraclea Minoa — selected among 5 national finalists.
- Energy-efficiency and restoration projects for residential buildings; small team management.

EDUCATION

Master of II Level – Resilient Territory Governance

Politecnico di Torino · 2022

MSc in Architecture for Sustainable Design

Politecnico di Torino · 2016–2019

Erasmus+

ENSAG, Grenoble, France · 2018

BSc in Architectural Science

TECH STACK

Languages

JS · TS · PHP · Python · SQL · Bash

Frameworks

React · Next.js · Svelte · Laravel · Django · Expo

Databases

MySQL · PostgreSQL · Supabase

Ops & Infra

Docker · Linux · Git · SSH · UFW · WireGuard

Design & UI

Tailwind · Figma · Adobe CC

Cloud & AI

OpenServerless · OpenWhisk · AWS

Learning

Kubernetes · Go · Jenkins

CERTIFICATIONS

- 2024 Cybersecurity & IT Support — AcademyRapido
- 2024 AWS Cloud Specialist — Randstad
- 2024 DevSecOps Expert — Aulab
- 2024 Cisco: Linux / Cybersecurity / Networking
- 2024 SecureFlag — 17 certs (see LinkedIn)
- 2023 Meta Front-End Developer
- 2023 Full-Stack Junior — Aulab

PROJECTS

- Apache OpenServerless — open source contributor
- Self-hosted VPN with WireGuard (Linux)
- Local NAS with Samba (Linux)
- vincenzofogliani.it — production site
